VACCINATIONS:** For all general community members who would like to receive a COVID-19 vaccination, including booster and primary dose series, Cow Creek Public Health offers drive thru vaccinations (no appointment required) on Mondays, Wednesdays and Fridays from 9:00 am to 1:00 pm at 2360 NE Stephens Street in Roseburg, across from the Tribal Government office. Last vaccine is administered at 12:45 pm. Mondays and Wednesdays are reserved for Moderna primary dose series and boosters. CCPH has paused administering Johnson & Johnson vaccines due to CDC guidance recommending MRNA vaccines. Fridays are reserved for pediatric Pfizer patients ages 5-11. At this time, we advise community members 12 and older who would like a Pfizer vaccine to find a community provider or pharmacy with that vaccine. At the time of vaccination, all individuals will be required to sign a consent form. Due to staff limitations, CCPH is unable to vaccinate anyone with severe medical risks (such as history of heart attacks, epilepsy, previous allergic reactions to vaccines, etc.). It is recommended those individuals receive their vaccination in the presence of a primary care physician. For vaccine related questions or general inquiries please call (541) 677-5535.

TESTING: REMINDER: Cow Creek Health and Wellness Centers are no longer offering free community testing. Testing is available by appointment only for Cow Creek Health and Wellness Center patients, Tribal Members, employees of Cow Creek Government Offices and affiliated businesses at the new Roseburg Clinic at 2589 NW Edenbower Blvd.

***Please note for residents under the age of 14, this will require a parent or guardian to accompany them and give written consent for the vaccine. Under Oregon law, minors 15 years of age and older may consent to medical treatment, including vaccinations, when provided by a physician, physician assistant, naturopath, nurse practitioner, dentist or optometrist, or other professionals operating under the license of these providers; however, families are encouraged to make decisions about vaccinations together.*
