Total COVID-19 Related Deaths	379	379	379	379	379	379	379

†Our COVID case update chart includes the total number of cases reported in Douglas County since the beginning of the pandemic in our county on March 8, 2020. The chart illustrates the combination of residents with positive test results and confirmed presumptives, as well as the breakout of each of those. There will be times when a presumptive will move to a positive test result, and our total case number will not change because the case has already been counted in our over-all total. We follow the CDC definition for fully vaccinated and up-to-date, which states that a fully vaccinated person is someone who has received both doses of a two-dose COVID-19 vaccine, or one dose of a single-dose COVID-19 vaccine and at least 14 days have passed since the individual's final dose. Up-to-date means they have completed the full series of the COVID-19 vaccine, and if eligible they have also gotten their booster, or if they are fully vaccinated, but not yet eligible for a booster. \*\*Please note, we are no longer detailing and providing daily numbers on Saturdays and Sundays. Monday's chart update will show the cumulative total of data since the Friday chart update.

### NEWLY REPORTED COVID-19 RELATED DEATHS OF DOUGLAS COUNTY RESIDENTS

Douglas County Public Health has no new confirmed the deaths of Douglas County residents related to the COVID-19 virus. Our team confirms and then reports all COVID-19 related deaths in the order that they are received. No newly reported COVID-19 related deaths to report this week.

### NOTIFICATION OF DELAYED COVID-19 RELATED DEATHS OF DOUGLAS COUNTY RESIDENTS

Douglas County Public Health has been receiving delayed reports of COVID-19 related deaths of Douglas County residents from Oregon Vital Records, hospice/long-term care facilities and out-of-state institutions. Our team confirms and then reports all COVID-19 related deaths in the order that they are received. **Our three hundred and eightieth COVID-19 related death was a 55-year-old woman who was diagnosed with COVID-19 on Saturday, January 1, 2022 and passed away on Saturday, February 5, 2022. She was not vaccinated. We were notified by Oregon Vital Records of the COVID-19 related death on Monday, March 28, 2022.** In the interest of privacy for the loved ones of these residents, and as our ethical responsibility to follow all medical laws, no additional information will be released. Douglas County Public Health officials thoroughly scrutinize and investigate all deaths, and review all medical records to make sure that everyone we report has met the requirements for a COVID related death, as per the [Oregon Disease Investigative Guidelines for COVID-19](#). Each death related to COVID-19 is painful for all Douglas County residents, and a sad reminder of the terrible impact COVID-19 has had in our local communities. The Douglas County Board of Commissioners, Dr. Dannenhoffer, DPHN and our COVID-19 Communications Team extend our heartfelt condolences and sympathies to all family members, friends, relatives, co-workers and community members of those who have passed after contracting this deadly virus.
