

# Novel Coronavirus - COVID-19

Your Douglas County Board of Commissioners, along with Douglas County's Public Health Officer, Dr. Robert Dannenhoffer, Douglas County Emergency Management and Douglas County Medical Providers and Organizations are working diligently with health officials to remain up to date on the latest information being released on the novel coronavirus.

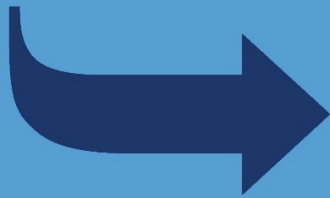

## How can I prepare at home?

There are steps every household should take to prepare in case they need to stay home for an extended time:

- Establish a child care plan in the event your kids need to stay home from school.
- Create a home emergency kit. Make sure you have the necessary food, drinks, medications and pet supplies if you need to stay home and limit your contact with other people for a couple of weeks.
- Also please reach out to your neighbors, especially those who might need extra help, such as older adults or people living alone.

## HOW DO I PREPARE?

### CREATE A HOME EMERGENCY KIT

Non-Perishable  
Food

Bottled  
Water

Medications

Flashlight +  
Extra Batteries

Emergency  
Contact List

First Aid Kit

Warm Clothing  
+ Blankets

Baby Supplies

Pet Supplies
